

Amendments to the Drawings

Fig. 8 is amended to change "Creates" to "Create" in Block 820.

The amendment to **Fig. 11A** replaces "Machine" with "Group" in Blocks 1130, 1135, and 1140. This change corresponds to the change made herein to p. 39, lines 13 - 14 of the specification, and brings the text and **Fig. 11A** into alignment with the text on p. 31, lines 15 - 18, where it is stated that component objects, also referred to as instances of ProductModel, are stored in a Group object. (The text on p. 39, lines 13 - 14 refers to obtaining component objects, and they are stored in a Group object, not in a Machine object.)

No new matter is introduced with these corrections, which are supported in the specification and drawings as originally filed.
